Meiirzhan Baitangatov

Student at Asia Pacific University of Technology and Innovation (APU / APIIT)
Atyrau Region, Kazakhstan

Summary

I am a skilled and passionate programmer from Kazakhstan. With expertise in multiple programming languages, including C, C#, Python, Java, Kotlin, HTML, XML, JavaScript, Swift, CSS, and R, I am a versatile and adaptable developer who can tackle a wide range of projects.

My education includes a BSC (HONS) in Information Technology with a specialization in mobile technology. This educational background, combined with his practical experience working on projects such as a To-Do application using SwiftUI and Firebase SDK, and a car renting application using Java, has given him a well-rounded skill set that he can apply to a variety of programming challenges.

In addition to my technical skills, I also possess strong leadership qualities, discipline, and a willingness to learn. I have participated in programming-related activities such as AppSheet hackathons and WAS Deep Racer Competitions, demonstrating my commitment to staying up-to-date with the latest trends and technologies in the field.

My excellent communication skills and ability to work with people make me a valuable team member, as demonstrated by my experience as a gym coach. My fluency in English, Russian, and Kazakh makes me well-equipped to collaborate with individuals from diverse backgrounds.

In summary, I am a talented programmer with a strong educational background, practical experience, and leadership qualities that make me an excellent candidate for programming roles. My commitment to staying current with the latest technologies and my ability to work well with others makes me an asset to any team.
